Qualification Pack

HCS/N7406: Take charge of the shift and handing over the shift to the jute product stitching operator

Description

This unit is about taking charge of the shift from the previous shift Jute product stitching operator and relieving the responsibilities to the next shift Jute product stitching operator.

Scope

The scope covers the following :

- Take charge of the shift from Jute product stitching operator
- Hand over the shift to Jute product stitching operator

Elements and Performance Criteria

Take charge of shift from Jute product stitching operator

To be competent, the user/individual on the job must be able to:

- PC1.** come at least 10 15 minutes earlier to the work spot
- PC2.** ensure that the necessary tools, gauges, etc. are in place
- PC3.** meet the previous shift stitching operator to discuss, identify and categorise the issues faced by him/her concerning the quality, production, spare, safety or any other specific instruction etc.
- PC4.** should check the cleanliness of the machines, tools & work areas
- PC5.** check whether any spare/raw material/ tool / yarn / any other material is thrown under the machines or in the other work areas
- PC6.** discuss with the previous shift operator for about any deviation in the quality and report the same to his/ her shift superior

Hand over shift to Jute product stitching operator

To be competent, the user/individual on the job must be able to:

- PC7.** hand over the shift to the incoming jute product stitching operator in a proper manner & get clearance from the incoming counterpart before leaving the work spot
- PC8.** report to his shift superiors as well as that of the incoming shift in case his/ her counterpart doesnt come for duty, in that case, the shift has to be properly handed over to the incoming shift superior & get clearance got from him/her
- PC9.** report to his/her shift superior about the quality/production/ safety issues/ any other issue faced in his/ her shift and should leave the department only after getting concurrence for the same from his/ her superiors

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the Organization's Policies & Standard Operating Procedures (SOP)

Qualification Pack

- KU2.** awareness & knowledge of customers
- KU3.** potential hazards associated with the machines and the safety precautions that must be taken
- KU4.** protocol to obtain more information on work-related tasks
- KU5.** how to contact the concerned person in case of queries on procedure or products and for resolving issues related to defective machines, tools, materials & equipments.
- KU6.** details of the various job roles & responsibilities
- KU7.** documentation and reporting formats
- KU8.** work Targets & review with Superiors
- KU9.** protocol and format for reporting work-related risks/ problems
- KU10.** method of obtaining /giving feed back concerning to performance
- KU11.** importance of Team Work harmonious working relationships
- KU12.** process for offering /obtaining work-related assistance
- KU13.** responsibilities under health, safety and environmental legislation
- KU14.** guidelines for storage & disposal of waste materials
- KU15.** understanding the importance of types of fibres, types of yarn, yarn count, sliver hank, sewing defects
- KU16.** process flow in a sewing unit
- KU17.** material flow in a sewing unit
- KU18.** different method of sewing
- KU19.** the minimum quality requirements of the product concerning to permissible/nonpermissible defects
- KU20.** different type of stitch
- KU21.** guidelines for operating the sewing/specialised machines
- KU22.** the safety mechanisms of the machines & should ensure that the same are in order
- KU23.** functions of different parts of the sewing/specialised machine.
- KU24.** the functional operations of the machines, where He/ She is working

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write clear and short sentences in simple language for daily reporting.
- GS2.** read and comprehend written instructions
- GS3.** communicate with supervisor appropriately
- GS4.** talk to others to convey information effectively
- GS5.** identify the real reason for the problem faced
- GS6.** apply problemsolving approaches in different situations
- GS7.** refer anomalies to the supervisor
- GS8.** seek clarification on problems from others
- GS9.** apply good attention to detail
- GS10.** check your work is complete and free from errors

Qualification Pack

GS11. maintain neatness at work

HCS/N7407: Responsibility of Jute product stitching operator

Description

This unit provides performance criteria, knowledge & understanding, skills & abilities required to stitch jute products, and diversified jute bags as per order and buyer's specification

Scope

The scope covers the following :

- Stitch the popular various kind of bags, decorative items, home furnishings, toys, etc.as per market demand or buyer's specifications

Elements and Performance Criteria

Produce the popular jute bag as per market demand or buyer's specification

To be competent, the user/individual on the job must be able to:

- PC1.** ensure the continuous supply of sewing twine and use proper quality of sewing twine. Anything wrong with sewing twine should be immediately reported to the supervisor
- PC2.** check power cable, alignment between needle and looper, guide plate, and pressure plate, SPI regulator, thread tension regulator, etc. before starting the machine
- PC3.** do cleaning of the sewing machine at regular intervals and also before starting of the machine
- PC4.** lubricate the sewing machine as per schedule. Lube-oil should not stain the fabric
- PC5.** keep watch on breakage of sewing twine. In case of frequent breakages of sewing twine, check the condition needle, guide plate, pressure plate and quality of sewing thread to rectify
- PC6.** check occasionally the stitch depth (bite), stitch gap (if any), and the number of stitches per decimetre. No stitch gap or non-uniform stitch density are is to be allowed
- PC7.** check and adjust the correct pressure of the pressure plate
- PC8.** check and adjust proper tension of the sewing twine with the help of a tensioning device
- PC9.** check the folding along with the seaming procedure for sewing. Any variation in folding or seam pattern by the operator's mishandling will lead to defects in sewing
- PC10.** take care of stitching tied at the corners of the bag. No stitch gap at the corner of the bag should be allowed
- PC11.** avoid excess sewing twine at the corner of the bag which causes wastage. There is no need of excess sewing more than 1.5 cm. at the corner of the bag
- PC12.** check the specific item to identify what type of stitching is best suited
- PC13.** estimate the expected length of time for the process role.
- PC14.** carry out test sews of the different types of stitches specified in the specification chart of the design.
- PC15.** check the type of sewing method/machine setting, delivery speed, needle quality
- PC16.** ensure that the operator should know the different parts types of a sewing machine attachments required for manufacturing diversified jute products.

Qualification Pack

- PC17.** ensure to have a proper knowledge of handling important tools required to stitch manufacture jute products.
- PC18.** ensure to know the unit of conversion of different jute fabric and way of measurement of fabric
- PC19.** ensure to know the measurement of Fabric cutting and finished size of the final product as per design
- PC20.** ensure to know how to insert a handle, net, metal corner, lining, Foam cloth, and their measurement according to design.
- PC21.** ensure to have a proper knowledge of different jute cloth produced for jute diversified product
- PC22.** ensure to have a proper knowledge of different seams used to join the two pieces of cloth for producing diversified jute product to get a standard jute diversified bag diversified jute bag operators should ensure the following checkpoints for quality control.
- PC23.** check whether the proper quality is maintained for jute, jute fabric, lining, reinforcement material, chain, button, hook, etc
- PC24.** check whether the look, shape, size, and colour of the bag are as per design or as per order
- PC25.** check the weight carrying capacity of the bag as per utility
- PC26.** check the quality of sewing yarn and proper stitching method during bag preparation
- PC27.** check the durability of the bag
- PC28.** check the cleanliness of the bag after finishing. There should not be any extra yarn, gum, oil, or pen mark on the finished product for the final selection of bag important checkpoints are
- PC29.** check whether the bag is compatible with the design or as per order PC33. check whether there is are any stitching defects
- PC30.** ensure that the wash care labels are attached on in the bag
- PC31.** check the handle and other added parts are properly fitted
- PC32.** the most important one is whether different steps for quality control has properly maintained

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** standard operating procedures (SOP) and regulations in a jute mill
- KU2.** knowledge of customers
- KU3.** potential hazards associated with the machines and the safety precautions must be taken
- KU4.** protocol to obtain more information on work related tasks
- KU5.** contact person in case of queries on procedure or products and for resolving issues related to defective machines, tools, materials & equipments
- KU6.** details of the various job roles & responsibilities
- KU7.** documentation and reporting formats
- KU8.** work targets & review with superiors
- KU9.** protocol and format for reporting work-related risks/ problems
- KU10.** method of obtaining /giving feedback concerning to performance
- KU11.** importance of team work, harmonious working relationships

HCS/N9005: Maintain work area and tools in handloom sector

Description

This unit applies performance criteria, knowledge & understanding and skills & abilities required to organise/ maintain work areas and activities to ensure tools and machines are maintained as per norms.

Scope

The scope covers the following :

- Maintain the work area, tools, and machines in the handloom sector

Elements and Performance Criteria

Maintain work area, tools and machines in handloom sector

To be competent, the user/individual on the job must be able to:

- PC1.** ensure the handling of tools and material is safe and correct.
- PC2.** use correct lifting and handling procedures.
- PC3.** use materials in a manner to minimize waste.
- PC4.** maintain a clean and hazard-free working area.
- PC5.** maintain the tools and equipment used.
- PC6.** carry out running maintenance within agreed schedules one's responsibility
- PC7.** identify damaged tools and materials and take action according to the standards followed.
- PC8.** ensure that the correct tools and yarn required are in place.
- PC9.** work in the correct posture.
- PC10.** use cleaning equipment and methods appropriate for the work to be carried out
- PC11.** dispose of waste safely in the designated location
- PC12.** store cleaning equipment safely after use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personal hygiene
- KU2.** safe working practices, and cooperative society/ngo/shg/cluster procedures
- KU3.** limits of one's responsibility
- KU4.** ways of resolving problems within the work area
- KU5.** the production process and the specific work activities that relate to the whole process
- KU6.** the importance of effective communication with colleagues
- KU7.** the lines of communication, authority and reporting procedures
- KU8.** the cooperative society/ngo/shg/cluster rules, codes and guidelines (including timekeeping)
- KU9.** the company's quality standards

Qualification Pack

- KU10.** the importance of complying with written instructions
- KU11.** work instructions and specifications and their accurate interpretation
- KU12.** methods to make use of the information detailed in specifications and instructions
- KU13.** relation between work role and the overall manufacturing process
- KU14.** the importance of taking action when problems are identified
- KU15.** different ways of minimising waste
- KU16.** effects of contamination on products
- KU17.** common faults and the methods to rectify them
- KU18.** tools maintenance procedures
- KU19.** hazards likely to be encountered when conducting routine maintenance
- KU20.** different types of cleaning substances and their use
- KU21.** safe working practices for cleaning and the methods of carrying them out

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in local language
- GS2.** read and comprehend written instructions
- GS3.** listen effectively and orally communicate information accurately
- GS4.** ask for clarification and advice from others
- GS5.** follow rule-based decision-making processes
- GS6.** make decisions on a suitable course of action or response
- GS7.** plan and organize work to achieve targets and deadlines
- GS8.** avoid absenteeism
- GS9.** Be punctual
- GS10.** work in discipline
- GS11.** act objectively, rather than impulsively or emotionally when faced with difficult/stressful or emotional situations
- GS12.** Difficult/stressful or emotional situations
- GS13.** apply problem-solving approaches in different situations
- GS14.** seek clarification on problems from others
- GS15.** analyze data and activities
- GS16.** pass on relevant information to others
- GS17.** provide opinions on work in a detailed and constructive way

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
